

Town of North Berwick Assessor's Valuation Reports

General:

This is a .pdf file and will require the use of Adobe Reader.

How to search for information:

Using Adobe Reader, Click on the EDIT icon on the top toolbar, then click on SEARCH. A search box will appear where you can enter what you are searching. You can search on any of the information within the file by using this technique. If you would like to search by Map and Lot number, enter the map and lot number as follows: 0XX-XXX. Example: If you are looking for Map 1 Lot 1, you would enter 001-001 in the search box. You can also search on name or location if that is more convenient.

Determining Map and Lot:

If you do not know the Map and lot number of the parcel being searched, you can look it up in the Map and Lot listing file on this website.

Information on the Valuation Report:

The Report contains basic information such as Owner, Location of Property, Map/Lot, Account, Zone, Utilities, Street, Land Use, Building Use(if applicable), and Book and Page(if available).

In addition, the report provides a detailed Land Description with values; Building Description including dwelling description, values and condition along with outbuildings, additions and improvements and Sales Data(if available). If the property has a building located on the property, then a sketch of the building will appear on the page following the written information.

If additional information is needed, data is available during regular business hours.
